***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance: There is no prior art alone or in combination that discloses a delivery catheter with a control handle having all the claimed features including a spur gear that directly engages the gears of a gear rack and a rotatable thumbwheel attached to an actuating gear which engages the spur gear to cause the gear rack to move and a means for allowing motion of the gear rack in only one direction is a spring having an edge which contacts the distal surface of the gears forming the gear rack to prevent distal movement of the gear rack.
2. The closest art of record: Kaveltadze (US 5,707,376) which teaches a control handle with a thumbwheel, gears and a gear rack but does not teach means for allowing motion in only one direction that is a spring. Kalvetadze teaches away from modifying the device to have such a feature since it teaches the desire to reverse the direction to retract the stent into the outer member passage should the stent not be properly located (C7:L39-44). Randall (6,541,261) teaches a control handle with a thumbwheel, gears and a gear rack but does not teach means for allowing motion in only direction that is a spring. Since Randall's gear rack is a screw that rotates, the modification of a spring mechanism would not prevent the gear rack from distal movement. There is no reason to modify the screw gear rack to meet the limitations of the claimed invention without the use of impermissible hindsight. Sullivan teaches a control handle that uses a trigger actuator and an intermediate element (82) to assist in moving the gear rack (84) and so the spur gear would not directly engage the gear rack. There would be no reason to modify the device without impermissible hindsight. In conclusion, although certain

features were specifically pointed out as being novel over the prior art, it is noted that the reasons for allowance rely on not just one individual feature but rather the combination of all the claimed features.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
